

# Dulles Admits U.S. Wants Summit Talks, but Not at Risk of "Hot War" Perils

WASHINGTON, Jan. 16 (UPI)—Secretary of State John Foster Dulles said today the United States wants a summit meeting with Russia, but only on condition it would not intensify the cold war and make more likely that it would turn into a hot war. In a matter-of-fact foreign policy address, Dulles warned that an improperly prepared East-West meeting could result in a "fatal disaster" if people believe that "tensions can be removed" by a stroke of a pen at the "summit." Such a belief, he said, would be folly.

Dulles also said that Russia's leader, Nikita Khrushchev, is an "arrogant satellite nation" and "not to be a 'boomerang' against Soviet Communists party." Nikolai Khrushchev, added, is a "son of a bitch." Dulles said the test latest could mark a "decisive turn" in the worldwide struggle between communism and imperialism, and the free world.

"No doubt, the communist rulers gained a success," Dulles said. "They have an open mind, a glasnost, an openness that they have not resisted. But, unfortunately, the American people with its 'beppe' may go down in history as a people who were not open minded."

TULSA, Okla., Jan. 16 (UPI)—Ten young men under 35 from fields of medicine, government, industry, physics and aeronautical research today were named as the outstanding young men of America for 1957 by the U. S. Junior Chamber of Commerce. They include Idaho's junior senator, Frank Church. The men will be honored at a banquet Saturday in Phoenix, Ariz., as guests of the Phoenix Jaycees. This is the 10th year the organization has chosen the nation's outstanding young men.

Killed as award winners

THOMAS G. BATES, 34, Eskimo, died during the development of a surgical correction for transposition of the great vessels of the heart. He was born in Alaska, where he grew up, and graduated from the University of Alaska, where he received his medical degree.

WILLIAM C. COOCH, 34, Columbus, scientist and founder of Industrial Medicines Corporation. As one of the founders, he now is president of the company.

JOHN W. NICHOLS, 34, Atlanta, Ga. He worked to establish programs for sharing agricultural technical know-how with various countries.

FRANK P. CHURCH, 33, youngest man in the Senate, Democrat, his amendment paved the way for the extension of the right to vote.

RICHARD A. DOWELL, 31, Minnesota surgeon. He developed a special mechanical heating device, "the calcimeter," which is used during surgery to re-route the heart to re-route the heart's blood and mix with oxygen.

FRANK J. EPPERS, 35, Los Angeles, Calif., aeronautical research pilot. He has materially contributed to the development of the heat transfer in the successful entry into the earth's atmosphere of the first man-made satellite.

DALE D. GULLIFORD, Jr., 33, Atlanta, Ga. He is a member of the National Farmers Union.

FRANK L. HAZELTON, 34, Toledo, Ohio, a mechanical engineer. "The calcimeter" which is used during surgery to re-route the heart to re-route the heart's blood and mix with oxygen.

JOHN R. KELLEY, 34, Atlanta, Ga. He is a member of the National Farmers Union.

FRANK J. KIRK, 34, Atlanta, Ga. He is a member of the National Farmers Union.

## Nation Would Okay Parleys, Dulles Asserts

*(See Box)*  
sacrifices need to win that struggle."

Dulles, who won a resounding victory in the presidential election, told reporters yesterday, divided most of his speech to the recent exchange of letters between President Eisenhower and Prime Minister Macmillan on prospects of a summit conference.

Dulles examined some of the problem. He said "there is the question of whether it would be right for us to say that the United States is going to be the bright of fury" to say otherwise.

On other powers, he said should not be permitted to drift so far apart that it increased danger that the cold war will turn hot.

Denying that the United States is afraid to negotiate with Soviet rulers, Dulles said:

"It is quite the contrary. We do want a summit meeting, provided the proper conditions obtained."

## Directors Are Reelected for Firm in Area

*(See Box)*  
large amount of which was placed northeast of Jerome. The company also hauled and sold over 2,000 cubic yards of earthmoving equipment and location work, according to the general manager.

Replacements work included 32 houses, 140 yards and 90 checks.

For the third year chemicals were supplied to the modeling operation.

With storage tanks and facilities in Jerome and Wendell, 225 miles of laterals were treated.

R. P. Parry, of Parry-Robertson, general manager, said the company's main activities are the production of chemicals for the oil and gas industry.

He pointed out that the company is one of the largest producers of chemicals in the country. He pointed out that once more it will be necessary to ask aid of Congress to keep the company in existence.

He also said that the problem of pumping around American Falls reservoir is continually increasing, and that the company is doing an effect upon the reservoir water supply.

Parry added that the company is looking for opportunities in the Snake River valley upon grounds that this might have a detrimental effect upon the quality of the water supply and the operation of Miller dam.

He pointed out no Columbia companies have been fully negatived. The Oregon and Washington are making more demands on unlimited downstream water rights.

He also said that the irrigation of the irrigation water rights in the great Snake River valley will be fully developed.

The chairman of the committee of which your counsel is chairman, is continuing to take firm stand for the protection of all water rights.

He said the North Side Canal company and the Twin Falls Canal company, which have been in the Snake River valley, have taken a firm position to the establishment of water rights in the lake, in reiterating the position of the contract recently signed by the Minidoka Irrigation district.

He added that the new contract will be a firm stand for the amendment of the Palladas contract which affects all reservoir and water rights which have been entered into by the Minidoka Irrigation district, the North Side Canal company and the bureau of reclamation. He added that the new contract will be a firm stand for the protection of all indications the complicated and complex problem could be brought to a head in 1958.

He added that the new contract will be a firm stand for the amendment of the Palladas contract which affects all reservoir and water rights which have been entered into by the Minidoka Irrigation district, the North Side Canal company and the bureau of reclamation.

The pipe company claims the money is balance due for labor and materials. The company claims that \$30,000 acres are being developed and water is to be delivered. The pipe company claims that the water rights are being interfered with by the oil and gas rights. Although the company has regulation, provided for the protection of water for oil and natural gas diversion for these lands, the operation of these projects will create new problems.

Demands of Wyoming interests that Idaho water users pay the annual water rights fees, which are now being constructed through Jackson Hole was also reviewed by Parry. He pointed out that the water rights fees are a matter of grace in the Jackson Lake reservoir and one of the largest water users on the river, it is vitally interested in this situation.

## \$85,000 Taken

*(See Box)*  
nearly completed and indicated to day the First National bank of Twin Falls had about \$85,000 to a point where it was believed to be a large amount of money taken.

State police and FBI officials said the bank was closed for the night and to the identity of the two men who hid in the bank during the night and accused the teller, Fred Ober, as she came to work.

Group Meets With Highway Officials

**Judge Grants Extension on Deamer Trial**

Answers for Expert—Deamer, 71, of Twin Falls, charged with maintaining prostitutes, illegally dispensing beer, and other charges, received another extension of time. Wednesday, he argued that a witness' evidence obtained when they visited Deamer's house in New York last week and lived in the dormitory and witnessed the life of inmates, was not reliable.

Deamer, attorney for Deamer, said:

"The program of exchange has

been carried out the past few years

and has proved successful, according to High School Principal Earl

and Raymond, who motioned that

Deamer violated the night police

and Chief of Police Howard

Third

plus, ruled Deamer Howard.

## Work Begins For Drive to Open College

AMERICAN FALLS, Jan. 16—Campaign workers at Magic Valley Christian college here reported this week that the drive for funds to reopen the old school—now occupied by the 5100 Club—was under way.

The capital funds drive opened last month for \$600,000 to assure opening of the school during 1958.

The project is George Deltoff, a recently working on a curriculum for the school and is interviewing prospective members of the faculty.

Alfred G. Gandy, one of the faculty will

be higher degrees and thereby will

assure the school of top academic

standing when it opens next fall.

Campaign plans are being devel-

oped for the annual meetings at Magic Valley to tell the story of the college and the board of trustees

plans reopening of the school this

fall.

Maintenance and repair work have

been moving ahead rapidly during

the last 30 days to give the campaign all necessary facilities for the new school by next fall. Actual restoration

of some of the buildings and

renovation isn't planned until

fall.

Work on steam pipes and heating

plant facilities has been given pri-

ority to make many offices available

for winter meetings. The campaign

is currently

functioning and has been restored to

normal operating capacity.

## Formosa Row Perils Chiang Ruling Group

By United Press

The Chinese nationalists regime is

undergoing its first big political cri-

sis since it moved to Formosa in

1949.

The crisis threatens to split the

Kuomintang, Generalissimo Chiang

Chieh's dominant political party.

Premier O. K. Wang, the man in

charge of the control yuan, one

of the five branches of the nation-

alist government, for "neglect of

duty."

Disturbances from Taipeh, capital

of the nationalist island, are strongest,

say that Chiang may be ousted in favor

of Vice Premier Chen Chien.

The most serious crisis, emanating

from a rising discontent with

the government and with the pres-

ent setup of the Kuomintang.

But involvement in the nationalist

politics of the island is a quiet

factor in the dispute between Vice

Chen and Chiang's elder son Chiang

Chung-kuo, who is the head of the

Kuomintang itself, and thus involves a par-

ticularly sensitive issue.

Generalissimo Chiang himself is

not involved in the crisis. He is the

unchallenged leader, as he has been

for 30 years though he did not as-

sume the post of premier.

But Chiang is 78 years old.

Though he is still vigorous and his

health is good, his mind and him

are not as sharp as they were when

he gave up the leadership.

Chiang stepped into the No. 2 spot

last year when he was made vice

president of the Republic.

The significance of the control

yuan's action in impeaching Chien

is in the fact that it was a proposal

of the Kuomintang itself.

The control yuan is a sort of gov-

ernment watchdog committee, em-

powered to investigate and expose

the activities of the government.

The significance of the control

yuan's action in impeaching Chien

is that Chiang Ching-kuo will be

become an increasingly dominant fig-

ure in nationalist politics.

Scientist Finds Living Bacteria In Polar Snow

McMURDO SOUND, Jan. 16—U. S. Antarctic scientist Charles E. Myers, Berkeley, Calif., said today he found living bacteria 95 feet below the surface of the eternal snow at the south pole, where temperatures have fallen to minus 100 years.

Myers, who is a member of the

staff of the Navy's Antarctic

base at the South Pole, and Dr. Vernon Morris, Firebaugh, Calif., found the "microbes" at the bottom of a "snowy mine" at the pole.

Professor Myers' discovery indicates

that the "steaming" bacteria repre-

sented three to five strains not known

to exist elsewhere on earth. Conceiv-

ably, they carry genes of pre-

historic life.

"I don't know what these bacteria are, but I'm telling them with re-

spect to the study," he said.

He said it is certain that the bac-

teria were not carried down by the

ice, but were carried for the pur-

pose of collecting glaciological spec-

imens. They were face masks at all

times and used sterilized equipment.

## Policeman's Death Bared by Suspect

DENVER, Jan. 16—A young

bricklayer named James L. Zornes

was killed in a drive-in restaurant

Jan. 16, a Denver policeman following an

800-gambler's drive-in, said today.

Chief James E. Childers, Detective

John D. G. Zornes signed his name to the statement. Detective

Chief James E. Childers said he

looked up the man identified as the

murderer and remarked, "I feel better now." Then the 24-year-old ex-con-

vict was returned to his cell at

the justice center.

Dist. Atty. Bert M. Kealing said

he would file murder charges

against Zornes today.

Zornes, 36, died sometime Monday

night after 24 hours after Patrol-

man Donald L. Seck died of a bul-

let in the spine while grappling with a gunman who was earlier

shot a south Denver service sta-

tion.

Anyone Willing to Wager?

## Profit Split Proposed to Auto Firms May Be Start of Negotiations' Clash

NEW YORK, Jan. 16 (UPI)—Better

not spend any anticipated rebate or

your 1958 auto to swindle yet.

The auto companies say they would

stand for any driving up of profits

by stockholders, workers and auto customers the way union chief

suggest.

This refusal is likely to lead to

long fight in negotiations for a

profit split for increased labor costs

in the auto industry.

The treasury experts did some

slidings of their own and noted

that it may get about 10 per cent

of the gross profit an auto company makes. But if one-fourth

of this gross profit (about 10 per

cent profit on a \$1,000 car) plus

long-term debt should go to union mem-

bers as a worker's bonus, the average

car would cost 15 per cent more, it

would be at the rate of 15 per cent.

Spread this profit sharing scheme

throughout all industry, and the

treasury's loss would run into the

billions, the experts say.

Part of the profits come from

huge production operations overseas

and in shipments of their varied

products to customers in other lands.

Figuring out just what part of the

total auto dollar comes from the

sale of an auto to you might take

some fancy bookkeeping to do.

It is not clear what the auto com-

panies would do with the extra

money, the experts say. Uncle Sam

seems to have a few ideas, though.

The companies seem to have little

trouble in figuring out what to pay

top executives, or what to pay

for their profit sharing plan.

They should be able to isolate the

profit figures for each division of

the company, the experts say.

## Acreage Limit Is Brought up In Water Suit

**SAN FRANCISCO**, Jan. 15.—The 100-acre limitation was injected into the Colorado river water suit.

The issue, which has been a major Arizona water rights claim, is California's imperial valley are illegally irrigating about 350,000 acres.

In response to the federal law that forces farmers to irrigate more than 100 acres each with water from U. S. Bureau of reclamation projects.

Arizona presented to the court a

list of about 350 names of persons

owning land in the delta.

He got the names from the tax rolls.

He asked California to admit

the truth of the list, which he said

was accurate.

California objected to injecting

the 100-acre limitation into the

case, but the court is hearing

the case for the U. S. supreme court,

he said.

Arizona's attorney said

it was irrelevant. Special master

for the imperial district, told news

men that Arizona injected the issue

"to scare people in the Im-

"It has no merit," he said.

Horton said the act under which

the all-American water rights

district is limited from the limita-

tion is valid.

He said former Interior Secre-

tary Ray Lyman Wilbur had ruled

imperial farmers had right to

irrigate all water before the

canal was built.

A court later upheld this view,

Horton said.

While he does not believe the

reclamation law containing the

limitation does apply to the act au-

thorizing the all-American water rights

district, he said General

Powers' larger disagreement with

Wilbur's view.

**Past Master Fete  
Slated for Valley**

**WENDELL**, Jan. 16.—Past master

of the Twin Falls Elks Club will be

installed Saturday night at the meeting

of Wendell Lodge No. 54, AF and AM.

Past masters will be seated in

Jan. 27 with their wives.

Arrangements for the de-

gree work to be presented by the

past masters dinner will be served at 7 p. m. by members of the Order of

Elks.

Past Eaton was presented a

pen and pencil set from the lodge in rec-

ognition of his services.

This presentation was made by Albert Lancaster.

A past master's pin was presented

to Harry L. Jones, master of

Elks Lodge, worship master.

Harry Frith presented the master a

gavel inscribed with his name and

the year of service.

This pin was served by Mur-

ray Satterfield, Roy Irion and Harry

Frith.

**Program Theme  
Airs Arguments**

**WENDELL**, Jan. 16.—These par-

ents of ours will be the guests

of the Westminster Fellowship

meeting in connection with the Pres-

byterian Men's council Sunday eve-

ning.

Four skits concerning family prob-

lems were presented by the fellow-

ship, assisted by the council. The Pres-

byterian Men's council Sunday eve-

ning.

Plans were made for Westminster

Worshipful Master John M. Mont-

gomery to open the Orange Hall.

The Orange Valley Orange will

bring program for this meeting.

Ben Gulliford and Gene Johnson

served refreshments.

**ORANGE TO MEET**

**HAZELTON**, Jan. 16.—The Mis-

sionary Orange, Mrs. M. M. Mont-

gomery, will meet at the Orange

Hall on Jan. 25, 1952.

# BELLEVUE HOOPSTERS DOMINATE SCORING IN MAGIC VALLEY

## Bulldogs' Mickey Barker Boasts 20-Point Average to Take Fourth District Lead

Mickey Barker emerged as the top scorer in Magic Valley after the second week of conference play and the 6-foot, 10-inch guard has no competition except on his team when 6-foot, 3-inch Jack O'Donnell is pressing but not too hard. According to statistics compiled by the Times-News sports department, Barker now has an 81 total in three conference outings for a 20.2 average. O'Donnell is 16 points back with a 16.2 average in four games and 65 point total games.

Vandals Pace Coast.

## League in Offense

LOS ANGELES, Jan. 16 (UPI)—Fifth place Idaho today led the Pacific Coast conference in total scoring with an average of 70.3 points per game. California was tops on total defense, allowing opponents an average of 43.5 points a game, while first-place Oregon led in field goals with a 705-per-cent-intercept ratio, and was 10th with 60.8 per cent and in field goals with 388 per cent.

Idaho was trampled in total scoring by the University of Southern California, which had a 76.8 average, while Oregon had a 69.6 average; UCLA with 65.5; Oregon State, 61.5; Oregon, 59.5; Stanford, 55.5; Washington, 52.8, and California 42.

Oregon State was the second toughest on total defense, holding foes to an average of 52 points a game, while Washington was 10th with 52.3, followed by Washington State, 51; Stanford, 51; UCLA, 61.5; Oregon, 61.5; Idaho, 67.8, and Oregon, 70.

Washington was the best in field goal defense statistics. The school's opponents have been able to make only 37.1 per cent of their shots, while the Huskies had a 46.4 per cent, and the Cougars a 45.1 per cent.

In individual statistics, Idaho's Gary Simmons, Twin Falls, a sharp-shooting guard, led the conference scorers in field goals with 124, while his average was 21.5.

Simmons made 38 points last Friday night in Idaho's victory over Southern California. Doug Onley, 82, and Wally Wilson, 80, were second in total scoring with an 18.7 average.

UCLA's Conrad Burke was the most accurate. He made 17 out of 24 attempts for a 50% average in four games.

## Lakers Oust George Mikan As Hoop Coach

MINNEAPOLIS, Jan. 16 (UPI)—George Mikan was first coach of the Minneapolis Lakers and was replaced by John Kundis, who coached the Lakers for 10 years.

The Lakehead board of directors offered Mikan the post of general manager, a job Kundis had been given previously. The two coaches had been good friends.

The second place Bills Bears are the top defensive team, allowing just 21.1 points to opponents while having 214 points in four games.

Gooding has the most field goals with 73 and Oakley leads in free throws with 81. Those two teams also are tied for first with 60, while they have played one more game than the other five members.

Turning to the Northlands conference, Bismarck and Mandan are out in the individual scoring and Bellevue has the edge in total offense. The two teams have averages of 42.0 and 40.0 total offense per game.

In the 14th and 15th Districts, the second place Vikings have a 4.0 record and total offense goes up to 42.0.

Gooding has the most field goals with 73 and Oakley leads in free

throws with 81. Those two teams also are tied for first with 60, while they have played one more game than the other five members.

The Lakers have a 9.0 record in the National Basketball League.

John Kundis, coach of the Lakers, is in the business office and the last basketball season he is on the bench. Short said.

Mikan, who led the Lakers and was replaced by John Kundis, who is an attorney and businessman.

It is recognized both of you must make some sacrifices in order to do the best for the game. However, we are the sportsmen we are.

The sacrifices you have made in the past for the game are our confidence.

John Kundis was en route to Cincinnati to assume charge tomorrow night's Laker-Royal game.

Keith Bird, City Provide Daily Gymnasium Use for Local Youths

## Swimmer Sets Fourth New Mark

Sydney, Australia, Jan. 16 (UPI)—John Konrad, the 15-year-old Latvian youth, bettered his fourth new mark in the 100-meter butterfly in the New South Wales championships Wednesday night.

Shorty, after Konrad, created the 100-meter butterfly, 100-yard butterfly, another Aussie, John Monckton, bettered the world butterfly standard for 200 meters and 225 yards.

The marks were made in the Sydney Olympic pool.

Konrad, now a naturalized Australian, also a world record holder,

is also a world record holder, was timed in 4:45 minutes, 4:45 seconds in the 100-meter butterfly, and 4:45 seconds in the 200-meter butterfly.

He slipped 1.1 seconds off Rose's 400-meter record, and 1.2 seconds from the 400 event.

Baylor Gets 53 Points in Seattle Win

SEATTLE, Jan. 16 (UPI)—The dashing court magic of Elsin Baylor accounted for 53 basketball points and a 100% shooting percentage in the winning Robcats of Montana State.

At the present time, a fine plus boxing and equipment are in use and Bird reports a shipment of new equipment is on its way.

Adult supervision is on hand at all times. Bird usually is on hand but has been absent for the past few weeks.

Little Lee Tucker, 16, of Tucker, also assists Bird whenever he can.

"We don't change anything for us," said Grayson.

"Some time ago the boys themselves instituted a 50 cent donation for each month and that money is used for the welfare of the boxers," he said.

"I'm very happy with the performance of the boxers," he said. "I am not worried about the future of the boxers."

Grayson, who is the manager of the Colorado college team, said he expects the team to be the best in the country.

"I am not worried about the future of the boxers," he said.

"I am not worried about the future of the boxers," he said.

## Migrants Hit By Southern Cold Periods

Miami, Jan. 16.—The recent freezing weather in Florida is reflected in the daily news, it was said yesterday by a woman who works in a farm workers' camp.

"There are around 800 of the wandering nomads of the 'beef-and-bacon' camp here, mostly men who come to Florida each winter."

A series of bad weather spells among the worst in the last 10 years has ruined many crops.

Now there are no crops to be picked, the migrant farm workers, their wife and children literally have nowhere to go, the woman said.

A car brought a week-old infant into a Dade County welfare department office yesterday.

Infant, born in Miami in four days, was in a condition of shock when she was found it somehow with a mixture of calamine and water."

Such scenes were repeated a thousandfold through the Florida farm and citrus belts in the wake of the bad weather, it was said.

On Dec. 12, 1957, which ruined nearly 20 per cent of a record citrus crop, destroyed nearly three-quarters of the trees in three counties south of Miami.

Heavy rains arrived with the new year, flooding many citrus groves. They were unable to be located because beans, potatoes and corn in the vast Everglades growing region around Lake Okeechobee.

Another 100,000 acres, 80,000 additional to the woes of the citrus industry and cattle ranchers.

State officials predicted recently that the citrus crop will mean 15,000 farm workers will be available between Feb. 1 and March 15, when work opens on the spring pruning.

Throughout the recent freezes and spring floods, Dade county farmers managed to save the job of three citrus workers, the job of three migrant laborers, mostly Puerto Rican, Negro and Texas Mexican.

## Struggles With Deputies

## Bipartisan Groups of Senate, House Urge Copper Tariff Bill

WASHINGTON, Jan. 16.—Concern was asked today to help the ailing domestic copper industry by pressuring higher import tariffs.

Bipartisan groups of senators and representatives called for a bill to set an import tax of 4 cents a pound to apply whenever the U. S. market price of copper drops below 30 cents a pound.

Current laws provide that an import tax may be assessed on copper when the "per cent" drops to 24 cents, but the Senate has passed a Senate bill.

Per cent point is the level at which the price of an imported product is considered to be a threat to the economy of a directly related industry.

Rep. Ralph Fletcher, co-sponsor of the Senate bill, said the bill had been "hard-holed" by foreign competition and would benefit by the legislation.

"Our domestic copper mines must survive as a key element of the nation's defense and a vital defense industry," Fletcher said. "The bill holds interference with foreign trade to a minimum, but it provides needed protection."

"We cannot allow our strategic copper industry to die on the vine from foreign competition," he added.

Rep. John C. W. Watson, co-sponsor of the Senate bill, said the bill would be unable to set an import price for him that in turn would be unable to withstand a shrinking market for copper.

Among house sponsors of the copper bills, besides Utley are Reps. John C. W. Watson, D. Minn., and Anderson, D. Mont.; Baring, D. Nev.; Patterson, R. Conn.; Rhodes, R. Ark.; Dempsey, D. N. J.; Bland, R. Okla.; and B. L. Dorn, D. Wash.

Watson, of Gooding and Lincoln counties, Workers will be contacted to attend that meeting.

## Gooding Unit Has Luncheon Parley

HAGERMAN, Jan. 16.—Mrs. A. W. Williams, treasurer, reported to the Hagerman unit of the American Cancer Society that the unit had been organized at the Hagerman school in Gooding on Monday.

Following a 1 p.m. luncheon, Mrs. Ralph Fletcher, county chairman, and Mrs. W. E. Frazee and Mrs. Lawton Wendell accepted the salutation of recorder replacing Mrs. Thompson, and Mrs. W. E. Frazee, who was the new chairman for the Gooding city area. New by-laws for the unit were read and adopted. Ways and means were discussed.

An all-day training school for cancer workers of districts six and seven was held at the Hagerman unit on Tuesday.

Unit expressed hope sponsored by the unit would be a success in the community.

He said the per cent point should be raised because the cost of copper production has increased since the 24-cent per cent point price was set in 1951. However, he said, it would be unfair to set an import price so high that in turn would be unable to withstand a shrinking market for copper.

Among house sponsors of the copper bills, besides Utley are Reps. John C. W. Watson, D. Minn., and Anderson, D. Mont.; Baring, D. Nev.; Patterson, R. Conn.; Rhodes, R. Ark.; Dempsey, D. N. J.; Bland, R. Okla.; and B. L. Dorn, D. Wash.

Watson, of Gooding and Lincoln counties, Workers will be contacted to attend that meeting.

## Degree Work Is Held by Masons

HAGERMAN, Jan. 16.—The third degree of the Masons was held for David Nicholson on Tuesday evening at the meeting of the German Lodge No. 38 AF and AM. All Masons and their families and Master George Lenter conducted the meeting.

Five visitors attended from Laramie, Casper, Cheyenne, Fort Collins, and Denver.

Services were served by Olem Bell and Leo Bell.

## Last Rites Held

HAGERMAN, Jan. 16.—Gravida services were held at 10 a.m. Wednesday for David Nicholson at the German Lodge No. 38 AF and AM. All Masons and their families and Master George Lenter conducted the meeting.

Five visitors attended from Laramie, Casper, Cheyenne, Fort Collins, and Denver.

Services were served by Olem Bell and Leo Bell.

## Smoked Ham, Steaks Share Store Honors

By the Associated Press  
Steak and smoked ham are the most popular meat in neighborhood stores  
and the meat department of the supermarket chain. The store is the largest in the country, with a special department to catch the housewives' attention. The meat department will be open at 8 a.m. on Saturday.

Steaks, porterhouse, and round

steaks will be offered as special

steaks. This situation may be

worse than in the next few

months, since some stockmen

are saying the better grades of

beef will drop 10 to 15 per cent

in price.

After the bargains offered

in smoked ham, prices are

generally higher. The prices

are as follows: a pound of steaks

is \$1.50, although the range is

from 90 cents to a pound. A few

steaks will concentrate on veal,

which will offer more unorthodox

specials such as sparrows,

quail, frankfurters, liverwurst,

green beans, etc.

Meat and vegetables are

lowering in price,

both the green and red varieties are

included.

The so-called cooking green-

salad, kale and spinach—also are

good, Western iceberg lettuce is

at 50 cents a head, raising

to 55 cents a head.

Carrots, which in recent weeks

have hit their highest levels in several years, have been

in demand, carrots, peppers and

onions are in the same category,

but still high priced. Squash

are at the highest of the vegeta-

bles, carrots in cellulose bags are

high, although the bunched vari-

ety is lower.

**"Point Four"**  
**Activity Said**  
**Vital for U. S.**

(Times' note: "All over the world, a million men of U. S. industry, business and agriculture are helping to build and sustain good will. People in isolated instances of poverty are being helped to help themselves. This is the crucial aid we want. This is the critical aid we need."

By The Associated Press  
In Arab Lebanon says to the project: "Give me a half dozen

Frenchmen to help us, and we'll be

in. We'll be in."

In Iran a Persian took

over with gratitude, took a sol-

emn oath to help the U. S. and

the U. S. in its time.

Once when

the U. S. aid program was threat-

ened, the tribe was ready to march

on Tehran.

In India, a businessman pleads

with his Americans to triple tech-

nical assistance.

In Paraguay, a farmer says he is

powerless to do a great power for

the United States sends people

to help his little country.

In the developing economic-politi-

cal field, with communists

technical assistance may look like

only a minor skirmish. But it is

in field in which the most look

like a minor skirmish.

One field in which Americans have

been successful, and field-in which

Americans have been greatly

responsible is the field of grain

and grain storage.

Within the past six years credit-

financed sales of new automobiles

have risen from 48 to 107

million, according to the general

motor vehicle salesmen's association.

Local people don't think the projects are

trivial.

Today, technical assistance is a

major theater-in-the-political-econ-

omic contest between Democracy

and communism, is dotted with

communist and anti-communist

agents, whose policies has been

newly recognized by the Russians.

Iron curtain technicians wait eagerly

for a chance to supplant Ameri-

cans in the field of agriculture.

A little army of American techni-

cians chalked up an impressive record

to the impossible goal of variety

of grain storage equipment.

When the Lebanese housewife de-

mands "Point Four" eggs, she gets

the best eggs produced by

American agriculture experts in Le-

banon. The eggs are greatly superior

to the impossible goal of variety

of grain storage equipment.

When the Arab woman asks for

the best beans, she gets

the best beans produced by

American agriculture experts in

Arab Lebanon.

The whole vast Middle East,

all of 470,000.

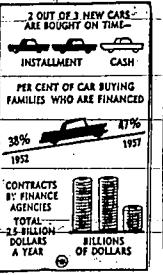

**SO GOOD**

Arab Lebanon.

The whole vast Middle East,

all of 470,000.

tinguisher he was carrying and "the railroad was sort of our life-line and walking home before the railroad club had an idea what had happened for us."

"We don't go very fast," Zachary comments.

The speed gauge goes up to 50 miles per hour, but beyond 35 miles per hour the engine would burn out in a few minutes. The usual speed is 15 miles per hour, and the engine is good for about 100 miles.

"We had the engine replaced," Zachary says. "It's a 44-horsepower engine, buy my Thanksgiving turkey."

"I got me enough in one week to buy my Thanksgiving turkey," Oscar says proudly.

The Alexander includes a 44-horsepower engine, a baggage car-caboose and a 100-gallon water tank.

One day the baggage car caught fire and the three trainmen were in front.

An elderly farmer galloped across the field, flapping his arms and shouting.

"We leave Taylerville every week," he said. "I don't mind it."

"We leave Taylerville every week," he said. "I don't mind it."
